

Information Session for Building Officials Residential Mechanical Ventilation Installation

Tuesday, April 13, 2010

8:30 am – 4:30 pm

NBBOA Pre-conference course
Crowne Plaza Hotel - Fredericton

This **one day** information session is a must for building officials, home builders and contractors who seek a better understanding of the importance of properly installed ventilation systems in the residential sector. Participants will obtain a detailed overview of the requirements of the nationally recognized CSA Standard F326 "Residential Mechanical Ventilation Systems" and section 9.32 of the Building Code. Demonstration of air-flow testing and depressurization testing will also be included to allow participants to become more familiar with the job related aspects of residential ventilation. **Please note that this is not an HRAI Certification program.**

Session Fees:

\$200 Member- NBBOA

\$275 Non-Member

The course fee includes the HRAI Ventilation Manual, a value of \$80

Meet One of SkillTech Academy's Instructors

Bob Clarke, CET, RASDT

A 30 year veteran of the residential industry, Bob established his own residential design and consulting firm in 1984. Since the early 80's, Bob has played an active role in training and quality assurance evaluation related to energy efficient house construction. Bob is the past President of the New Brunswick Home Builders' Association and has been an accredited HRAI instructor since 1986.
